"Sponging" on Newspapers.

Every man thinks a newspaper fair game. If a society or any body of men

get up a concert or a ball, or other form of entertainment, the object of which is to put money in their pockets, or if the proceeds are to be devoted to charitable

purposes to add to their own glorification they become very indignant if the proprietors of a newspaper do not assist them by a series of gratuitous advertise-ments for several weeks before the event

takes place. These gentlemen should remember that literary men in this practical age, work for money as well as for fame—principally the former, however, and the business manager of a newspa-

per, if he wishes to keep on the safe side of the ledger, conducts his charge on the same principle as the head of any other business establishment. People who are getting up a ball would feel chary of ask-

ing a present of a pair of gloves from any merchant on that account, yet asking

exception to this rule. In the way of news topics we freely and gladly insert sketches of all entertainments after they

have become matters of history. It is only the preliminary work, looking to

the drawing out of increased patronage from the public, for which we expect compensation."

A Brewer in Congress.

We are delighted to be able to an

sociation to Boston at its Convention held there last June, has been elected, on the Democratic ticket, for the First

Congressional District of New Hampshire.

So much for the East, now let us hear from the West.—American Brewer.

And is this—being a brewer—to be the test of one's fitness to make laws, and to

represent this nation in Congress? Is this an evidence of enlightened states-manship? And are we, indeed, to come under the rule of brewers, distillers, and

dealers in grog? Woe, woe be on us, when we come under such rulers! But where are the temperance men, the re-ligious men, good citizens who have an

interest in the perpetuity of our free insti-tutions? We accept the New Hampshire

brewer because we must, but let us all

An amusing story is told of Geo. Childs, of Philadelphia, who takes great pride in showing his establishment to visitors. He had passed through several of the de-

partments, and as he approached the

stereotype rooms, remarked that this

room was always kept in perfect order, when, on opening the door, there lay a drunken compositor fast asleep on one of

the imposing stones, who did not appear to be in perfect order. The disgust of Mr. Childs can be better imagined than

Sidney Smith tells of a maid who used to boil the eggs very well by her mas-ter's watch; but one day he could not

lend it to her because it was under re-

pair, so she took the time from the kitchen clock, and the eggs came up

nearly raw. "Why didn't you take the

three minutes from the clock as you do from the watch, Mary?" "Well, Sir. I thought that would be too much, as the

"What do you do for a living?" asked a farmer of a burly beggar, who applied at his door for cold victual and old clothes. "I don't do nothing much but

travel about," was the answer. "Are you good at traveling?" asked the farmer. "Yes," replied the beggar. "Then let's see you travel," said the farmer.
